BRIAN HOBBINS

IT Automation & AI Solutions Specialist

Salisbury, PA | brian.hobbins@proton.me | 814-417-4592 | Remote | github.com/brian-hobbins

SUMMARY

Automation engineer with 20+ years turning complex, manual IT processes into reliable, scripted systems — at enterprise scale (fleets of 68,000+ PCs and 17,000+ servers). For the past several years I have focused on applied AI: building Python tools, API integrations, custom GPTs, and chatbot/agent workflows that save small businesses hours of repetitive work. I pair deep systems, scripting, and database experience with modern AI tooling to ship practical automation end to end.

CORE SKILLS

AI & Automation: Python · OpenAI & Anthropic (Claude) APIs · Custom GPTs · Prompt engineering · Chatbots & agent workflows · PowerShell · VBScript · Bash · WMI

Systems & Cloud: Windows / Windows Server · Linux · BSD · AWS (EC2) · Cloud administration · Active Directory · IIS

Data: MS SQL Server · MySQL · Access · SQL / TQL reporting · Data loads & ETL · Schema design

Enterprise & Support: Altiris / Notification Server · HP CMDB / OpenView · ILMT · Remedy · Salesforce · SharePoint · SLA-driven support

Web & Languages: C# · Node.js · PHP · JavaScript · HTML · XML · WordPress

EXPERIENCE

AI Automation Developer & IT Consultant — Independent / Freelance

2012 – Present · Guru.com, PeoplePerHour · Remote

- **Build** AI tools and custom GPTs for small businesses using Python and the OpenAI / Anthropic APIs — document summarizers, data extractors, and content generators.
- **Design and deploy** chatbots, admin bots, and workflow automations that replace repetitive manual tasks and cut client turnaround time.
- **Provision** AWS EC2 servers and WordPress sites; design database schemas and resolve data-integrity issues.
- **Write** automation scripts and utilities in Python, PowerShell, VBScript, C#, and Node.js for individuals and small businesses.
- **Manage** engagements end to end — scoping, building, and supporting delivered solutions while maintaining repeat-client relationships.

Data Integrity Analyst — Estée Lauder

January 2020 – September 2020

- Inventoried all data-driven devices across QA labs and assembly lines and built audit trails to ensure data integrity.
- Authored data-handling standards and ran periodic audits; enforced security controls on a sensitive production database.

Technical Support Specialist — Asteris, Inc.

October 2018 – November 2019

- Triaged veterinary-application issues and met SLA deadlines in a high-volume Salesforce ticket queue.
- Wrote SQL queries to isolate application bugs and generate reports; fixed customer IIS issues and scripted parsing of large data sets.

Application Analyst — **Cognizant Technology Solutions**
February 2018 – August 2018

- Triaged healthcare-application issues, performed data loads for healthcare claims, and authored diagnostic technical documentation.
- Wrote SQL queries for bug isolation and reporting; resolved IIS issues and produced large reports in Excel.

Software Systems Specialist II & III (Team Lead) — **Bank of New York Mellon**
May 2008 – September 2012

- Engineered and administered enterprise asset-management platforms (Altiris / Notification Server, HP CMDB / OpenView) covering 68,000+ PCs and 17,000+ servers.
- Designed and rolled out the Notification Server / CMDB infrastructure and led a large-scale ILMT license-tracking deployment.
- Developed VBScript / SQL automation and Windows applications; integrated with Active Directory to push software and patches at scale.
- As Team Lead, coordinated team efforts via SharePoint, authored end-user documentation, and delivered SQL / TQL reporting.

EARLIER EXPERIENCE

- Application Scripter (Contract) — TekSystems (2007–2008): application compatibility and automated Windows installers for an asset-refresh project.
- Remote Service Technician — Support.com (2017–2018) · PC Technician / Owner — HobbinsComp (2002–2007) · PC Technician Intern — Carnegie Mellon University (2003–2004) · Tutor / Lab Assistant — Pittsburgh Technical Institute (2002–2004).

EDUCATION

Associate in Specialized Technology, Computer & Networking Systems Technology — GPA 3.81
Pittsburgh Technical Institute, Oakdale, PA · 2002–2004
